

GREGG VAN ORDEN

SOLUTIONS / INTEGRATION ENGINEER

gvanorden@gmail.com

709 Albemarle Street

Wyckoff, NJ 07481

(201) 321 – 8040

SUMMARY

5+ years building innovative solutions using diverse methods and skills.

- *Integrity* - possess a strong work ethic motivated by learning, creating, and intellectual honesty.
- *Persistence* - deep drive to grasp and resolve difficult, multi-dimensional problems.
- *Student Mentality* - continual growth in knowledge and understanding.

EXPERIENCE

PRE-SALES / SOLUTIONS ENGINEER | STEALTHbits Technologies Inc.

Apr 2017 - Present

Develop large-volume data solutions and optimize preexisting workflows for prospective clients through presales engagements and integration partnerships.

- Created 20+ solutions for distinct customers, ranging from small-scale and multi-billion row datasets.
- Enhance STEALTHbits software; merge custom work back into the product for general use.
- Revised a workflow suffering from protracted execution times, reducing total runtime from 3 days to 1 hour.
- Engineered a prerequisite validator for presales POCs, minimizing time spent on configuration checks by 30m+.
- Built an integration algorithm in the form of a stored procedure to derive and rank owners of sensitive files from user-based activity metrics and effective group membership.
- Developed the [STEALTHbits: AD & LDAP Monitoring](#) Splunk App.

POST-SALES / PROFESSIONAL SERVICES ENGINEER | STEALTHbits Technologies Inc.

Jan 2014 - Apr 2017

Install, configure, customize and automate enterprise-level security software, exposing and analyzing areas of risk in client unstructured data environments.

- Led 25+ deployments, maintaining a 65% billable utilization at \$175+/hour.
- Provide technical and architectural guidance to team member implementations.
- Perform pre-deployment scoping calls with clients to assess business problems and environment metrics.
- Strong troubleshooting ability; adept at resolving difficult customer issues over remote sessions.
- Revise and simplify pre-packaged SQL analyses, boosting performance and legibility of STEALTHbits products.
- Sheffield, England (6 months on-site) | Active Directory, File System, and SharePoint implementations.
- Built an error classification tool to rank, categorize, and explain 250+ log message possibilities; currently in use by various Fortune 500 customers.

QUALITY ASSURANCE ENGINEER | STEALTHbits Technologies Inc.

Feb 2012 - Dec 2013

Diagnose, reproduce, and document product defects and customer issues for enterprise auditing software.

- Compose and maintain concise, comprehensive test plans for functional, performance, and regression testing.
- Automate and execute test cases using SQL, PowerShell, Python, and automation software.
- Collaborate with development to learn and validate expected behavior of product enhancements.
- Participate in and effectively communicate work progress in daily Scrum meetings.
- Skilled in building, configuring and networking virtual environments.

SEO INTERN | Rosenblum Law Firm

Jul 2011 – Feb 2012

Design and execute link development strategies, improving organic search results for a traffic lawyer website.

- Conducted on-site optimization related to page titles, URLs, redirects, and internal link structures.
- Installed Google Analytics and reviewed ranking performance daily.
- Composed well-written emails to prospective law offices inquiring of their interest participating in link building.

PERSONAL PROJECTS

- Developed a medical coding app to organize and simplify the CPT/ICD-10 coding process.
- Built a PowerShell module to generate and randomize user activity (ex. read, write) through switches.
- Engineered a form-based PDF generator for NJ Residential Lease forms.
- Designed and developed the Van Orden Realty website.

EDUCATION

LEHIGH UNIVSERITY | 2006 - 2010

Bachelor of Science; *Finance*

Bethlehem, Pennsylvania

SKILLS

* entry level

SQL	PowerShell
Python	JavaScript
C#/.NET*	Java*
NodeJS	ReactJS
JQuery	Bootstrap
HTML	CSS
JSON	XML
CMD	TCP/IP
DNS	REST
AWS	Git

APPLICATIONS

SQL Server	Active Directory
VMware	Visual Studio
Hyper-V	SharePoint
Splunk	Symantec DLP
MS Office	StealthAUDIT

PLATFORM / OS

Windows	Windows Server
Mac	Linux
NAS	DOS
